

January 2001-present Assistant professor of Pharmaceutical analysis. Reviewer of In.J.Nanomedicine, Regional Editor "Mini Review in Medicinal Chemistry", Bentham Publisher September 2000 School of "Molecular photochemistry" Pavia October 1999-present Assistant Professor in Medicinal Chemistry at the University of Turin, Faculty of Pharmacy 1997-present Teaching duties in the course of Medicinal Chemistry (Faculty of Pharmacy of the University of Turin and Novara) Analysis of Drugs (Faculty of Pharmacy of the University of Turin and Novara) within the Pharmaceutical Chemistry and Technology degree course. December 1998 Post doctoral fellowship in Medicinal Chemistry entitled: Studies on calcium channel modulators University of Turin, Faculty of Pharmacy June 1998 Scholarship from the Association of Miocardial Pathologies entitled: Vascular and cellular mechanisms which regulate miocardial hypertrophy. University of Turin, Faculty of Pharmacy. May 1998 Ph.D. in Medicinal Chemistry with a dissertation entitled: Synthesis, structure-activity relationship of NO-donors/Ca<sup>2+</sup>-channel antagonist hybrids University of Turin, Faculty of Pharmacy February-June 1997 Visiting researcher during the PhD at the University of Marseille, Ecole Nationale Supérieure de Synthèses, de Procédès et d'Ingènerie Chimiques d'Aix-Marseille (Prof. C. Roussel) Stage entitled: Chiral separations using chiral stationary phases. July 1994 Degree in Pharmacy with a thesis entitled: Studies of potential NO-donors. University of Torino, Faculty of Pharmacy
